Disclaimer

The following presentations are confidential and are being made only to, and are only directed at, persons to whom such presentations may lawfully be communicated ("relevant persons"). Any person who is not a relevant person should not act or rely on these presentations or any of their contents.

Information in the following presentations relating to the price at which relevant investments have been bought or sold in the past or the yield on such investments cannot be relied upon as a guide to the future performance of such investments. These presentations do not constitute an offering of securities or otherwise constitute an invitation or inducement to any person to subscribe for or otherwise acquire securities in any company within the Group. Neither this documentation nor the fact of its distribution nor the making of the presentation constitutes a recommendation regarding any securities. This presentation if for information purposes only.

The presentations contain forward-looking statements which are subject to risk and uncertainties because they relate to future events. These forward-looking statements include, without limitation, statements in relation to the Group’s projected growth opportunities. Some of the factors which may cause actual results to differ from these forward-looking statements are discussed in certain slides of the presentation and others can be found by referring to the information contained under the heading “Key Group risks 2012” in “The Business Review” in our Annual Report for the year ended 2012. The Annual Report can be found on our website (www.gemdiamonds.com).

No statement in this presentation is intended as a profit forecast or profit estimate and no statement in the presentation should be interpreted to mean that earning per share for the current or future financial years would necessarily match or exceed the historical published earnings. The presentations also contain certain non-IFRS financial information. The Group’s management believes these measures provide valuable additional information in understanding the performance of the Group or the Group’s businesses because they provide measures used by the Group to assess performance. However, this additional information presented is not uniformly defined by all companies, including those in the Group’s industry. Accordingly, it may not be comparable with similarly titled measures and disclosures by other companies.

Additionally, although these measures are important in the management of the business, they should not be viewed in isolation or as replacements for or alternatives to, but rather as complementary to, the comparable IFRS measures such as revenue and other items reported in the consolidated financial statements.

The distribution of this presentation or any information contained in it may be restricted by law in certain jurisdictions, and any person into whose possession any document containing this presentation or any part of it comes should inform themselves about, and observe such restrictions.

Diamond Market

- 2013 began with improved prices
- Prices flattened from May onwards
- Robust prices for Letšeng high value production

Positive signs early in 2013, short term expected rough shortage should see some modest price rises perhaps accompanied by improving polished prices

Improved polished trading

Long-term Supply/demand imbalance

Letšeng Resource – Still delivering exceptional diamonds
(7 diamonds worth US$42.9m since January 2013)

164ct sold for US$9.0m (US$54,911/ct) April 2013

92.9ct sold for $5.3m (US$56,494/ct) January 2013

12.5ct blue sold for US$7.5m
(Letšeng record of US$603,047/ct) October 2013

94.4ct sold for $4.6m (US$48,619/ct) January 2013

99.9ct sold for US$6.5m (US$64,631/ct) July 2013

82.6ct sold for US$4.9m (US$59,173/ct) October 2013

98.29ct sold for US$5.1m (US$52,077/ct) September 2013
Letšeng – Addressing Diamond Damage

- Noticeable decrease in incidence of severe breakage following installation of 4 new cone crushers in Letšeng’s Plants 1 & 2
- 18 +50 carat diamonds recovered since the installation of the new cone crushers.

Kawasaki Cybas i1200 cone crushers installed in Letšeng’s Plants 1&2
Letšeng – Project Review

Current status

Design and costing of a new modular Recovery Plant - advanced stage

- To treat the high value, coarse fraction
- Latest XRT technology to ensure recovery of type II diamonds
- Security improvements
- Diamond accounting of all diamonds recovered by these units

Expansion studies at Letšeng - work continuing

- Phased introduction of “Kholo” principles/technologies to minimise and spread capex
  - Increased tonnage
  - Reduce diamond damage
  - Increased liberation
Ghaghoo Mine Development
Ghaghoo Development Update

- Access decline continues to progress through competent basalt, with c.200m of basalt ramp development completed as at end October
- Total tunnel length at end Oct 2013 (sand & basalt portions) was 762m, with a further c.300m of waste development and c.700m of kimberlite development to go
- Plant construction completed
- Mining equipment on site
- Processing on target for H2 2014

</thead>
</table>

*Includes once-off costs as part of restructuring
Outlook

- Mining in the Satellite pipe ramped up in Q4 2013
- Decrease diamond damage - new crushers installed in H1 2013
- Detailed design and estimate on improved recovery plant
- Complete access decline at Ghaghoo - on track for production H2 2014
- Corporate office cost alignment with current asset base
- Supply remains constrained
